EXECUTIVE SUMMARY

Senior Manufacturing Operations Leader with **30+ years** of progressive experience across Tata Motors, Mahindra, FANUC, and General Motors manufacturing environments. Proven track record in plant operations, manufacturing engineering, maintenance management, industrial automation, production readiness, and new model launch execution within complex, high-volume automotive facilities. Experienced in leading **cross-functional teams, driving production ramp-up programs, managing manufacturing risks, and supporting operational excellence initiatives**. Currently responsible for Paint Shop Maintenance **CAPEX** budgets of approximately **₹4 Crore** and leading teams of **50+ members**, with prior leadership responsibility for **150+ personnel**.

CORE COMPETENCIES

- Manufacturing Operations & Plant Leadership
- Launch Management & New Model Introduction
- Manufacturing Engineering & Production Support
- Industrial Automation & Robotics Engineering
- Maintenance & Reliability Management
- Production Ramp-Up & Startup Stabilisation
- Manufacturing Readiness & Operational Excellence
- Risk Assessment, Governance & Mitigation
- Stakeholder & Supplier Management
- Project Execution & CAPEX Management
- Cross-Functional Program Leadership
- Team Leadership & Organisational Development

PROFESSIONAL EXPERIENCE

Tata Motors Ltd – Passenger Vehicles, Sanand | Ahmedabad, Gujarat
Deputy General Manager – Paint Shop Operations & Project Support

Oct 2017 – Present

- Led manufacturing operations support, industrial automation initiatives, production readiness activities, and launch execution for five simultaneous new model programs.
- Guided a multidisciplinary team of **50+ engineers**, supervisors, and technicians.
- Owned risk assessment and mitigation governance for launch phases.
- Drove **LQOS** deliverables tracking and closure discipline.
- Built and institutionalised in-house manufacturing process capability delivering **₹1 Cr+ savings**.
- Responsible for Paint Shop Maintenance **CAPEX** planning and execution of approximately **₹4 Crore**.
- Specialized in industrial automation, robot maintenance, robot profiling, robot teaching/programming, and process engineering.
- Represented manufacturing operations at management reviews and supplier governance forums.
- Successfully completed **Bubble Production Ramp-Up Enhancement Business Support Project assignment** in the New 1.5L PWT Maintenance Department (Dec 2025 – Apr 2026), supporting manufacturing stabilization, KPI achievement, operational readiness objectives, and production ramp-up activities.

Mahindra Vehicles Manufacturing Ltd (MVML) | Chakan, Pune
Manager – Paint Shop Operations

Apr 2010 – Jul 2017

- Led full Paint Shop operational ownership across Passenger and Commercial Vehicle programs — directing cross-functional teams, managing vendor relationships, governing spare and budget planning, and sustaining production continuity through new model launch cycles.
- Delivered **₹75L+ annualized cost reduction** through a structured process improvement initiative — led root-cause investigation, coordinated cross-functional corrective action, and embedded sustainable operational controls into standard practice.
- Directed greenfield and brownfield project execution — governed scope, vendor selection, installation timelines, commissioning milestones, and operational handover for plant-wide paint shop modernisation programs.
- Led team capability development through TPM, PM, and reliability engineering programs, improving operational availability and embedding a culture of proactive maintenance governance.

FANUC India Private Ltd | Pan-India | GM Talegaon & GM Halol
Expert – Paint Application Systems & Program Launch Support

Jan 2008 – Mar 2010

- Managed full launch program execution for **13 painting systems** across **two General Motors manufacturing sites** — directing installation scope, commissioning governance, process qualification, and operational readiness handover to plant teams.

- Served as dedicated Program Support Leader for GM India for **2 years post-launch** — managing critical escalation resolution, spare parts governance, and 24-hour operational continuity commitments.
- Delivered structured capability transfer programs for GM manufacturing teams at Talegaon and Halol, enabling self-sufficient operations management.

Mahindra & Mahindra Ltd | Nashik / Mumbai

May 2000 – Jan 2008

Deputy Manager – Paint Shop Operations | Maintenance Executive – Engine PU

- Led manufacturing operations, maintenance activities, and new model introduction support.
- Supported **engine manufacturing operations** through maintenance management and equipment reliability improvement.
- Managed **production process governance, maintenance planning, vendor coordination, and escalation management**.
- Gained extensive exposure to engine manufacturing environments, production support systems, and preventive maintenance practices.
- Led Paint Shop operations and launch support activities while contributing to manufacturing readiness and operational continuity.

Earlier Career (1995–2000): Engineering and project management roles at Romar Positioning Equipment (Reliance Petroleum – Jamnagar), Neutron Electronics, Abee Printer Ribbons, and Krupp Industries — building foundational skills in manufacturing operations, project execution, and cross-functional coordination.

KEY PROGRAM & OEM EXPOSURE

Tata Punch · Tata Nexon EV · Tata Altroz · Tata TIAGO / TIGOR · General Motors (Talegaon & Halol) · Mahindra CV Programs

LEADERSHIP & BUSINESS IMPACT

Current responsibility for a team of **50+ members**, with prior leadership of **150+ members** across manufacturing and maintenance functions. Own Paint Shop Maintenance **CAPEX** planning and execution of approximately **₹4 Crore**, supporting asset reliability, modernization, and operational readiness. Operate in **high-volume automotive manufacturing environments** with multi-program launch exposure, production ramp-up support, and plant-level operational governance. Represent operational teams in management reviews, supplier forums, and cross-functional coordination meetings to support disciplined execution and issue resolution.

TECHNICAL PROFICIENCY

Quality & Manufacturing Systems: Six Sigma (Yellow Belt), TPM, TQM, TBEM, Root Cause Analysis, MTTR/MTBF, Launch Quality Operating System

Program & Operations Tools: Production Planning, Launch Scheduling, Ramp-up Management, Startup Stabilisation, Risk Governance

Domain Knowledge: Paint Shop Operations, Industrial Automation, Dürr Systems, ABB / FANUC / KUKA Platforms, PLC Process Control (Allen Bradley & Siemens)

EDUCATION

PG Diploma – Operations Management | Welingkar Institute of Management, Mumbai | 2015 | 1st Class (71%)

B.E. – Electronics & Communication Engineering | Karnataka University | 1995 | 1st Class with Distinction (71.5%)

Diploma in E&TC | Government Polytechnic, Bijapur | 1991 | (74%)

CERTIFICATIONS & RECOGNITION

TBEM Gold Standard Practitioner · Lean Six Sigma – Yellow Belt · #1 Rank – Tata Group E-Learning Platform (16,000+ employees) · TataProEngage Volunteer Program Participant · #8 Rank – Karnataka State Diploma Exam (1991)
